

IS KILLED BY FALL WHEN CABLE SLIPS

GERALD HALL IS VICTIM OF
ACCIDENT.

HIS NECK IS BROKEN

Was Prominent In Affairs At Maryville High School From Which He Was Graduated In 1922.

Gerald Hall, 21 years old, son of Mr. and Mrs. J. J. Hall, 1212 East Second street, was fatally injured when he and two companions were hurled to the ground, fifty feet below, while working on a scaffold at the St. Joseph water works station, about 8 o'clock this morning.

Hall suffered a fractured skull and broken neck and died in an ambulance on the way to the hospital five minutes later. His two companions, George Raun and Gene Pauley, both of St. Joseph, are in the hospital in St. Joseph, the extent of their injuries not yet determined.

Young Hall, who had been employed at the St. Joseph water works for the last seven days, was working on a scaffold about fifty feet high getting ready to construct a cement plant. The cable slipped and the scaffold hurled him and his two fellow workers to the ground.

The body was taken to the Fleeman-McNeill undertaking parlors in St. Joseph.

George Raun, young Hall's companion, who was seriously injured, visited in Maryville last Sunday. He has been here a number of times and is well known in Maryville.

Both of Raun's legs were broken by the fall. At 2:15 o'clock this afternoon, St. Joseph physicians said they thought both Raun and Pauley would recover.

Gerald Hall was graduated from the Maryville High School in the spring of 1922. He was editor-in-chief of the high school annual, the Maryvillian, that year, and played center on the high school football team in 1920 and 1921. He took an active part in all school affairs.

Since his graduation from high school he had been connected with a construction company, with headquarters in St. Joseph and had worked in various towns in Missouri and Kansas.

He is survived by his parents, three sisters, Mrs. Edwin Marshall, a teacher of a rural school in this county and now attending school in Indiana; Lillian and Floy, and seven brothers, Ralph, Forrest, George, John, Donald, Vernon and Lowell, all living at home.

Mr. and Mrs. Hall left for St. Joseph about 1 o'clock this afternoon and will probably bring the body back to Maryville tonight. No arrangements for the funeral have been made.

If Mr. Rathbun does not sign up before Saturday, Judge John M. Dawson will appoint commissioners to assess damages, taking into consideration the benefits.

Competition Gone Maryville Girls May Have Dates

It's all over but the shouting.

When the special train on the Burlington left at 4:20 o'clock this afternoon it carried away many pretty girls and stalwart youths and many not so noted for their pluckitudinous preeminence nor for their sturdy frames, and the Burlington train at 4:48 o'clock carried more and the trains tonight will carry still more, and tomorrow night, well, tomorrow night the Maryville girls will get a chance to have a date, for with all the competition gone they will reign supreme in the affection of the local Beaux Brummel, until school re-convenes in the fall.

And the Temple of Knowledge is a quiet spot. Save for the occasional appearance of a teacher, who remains to complete work, the halls are empty and the long corridors are void of habitation.

Examinations at the State Teachers College closed today. The summer term ended. The school year is done. Vacation is at hand. All is peaceful and gay. And Maryville once more is a quiet, sedate town, overnight diminished in population by 1500 persons. Nothing remains but the heat and the poor, both of which ye have with you always—in the summertime.

Wabash Officials Here Yesterday

In the Interest of the Proposed Moving of the R. R. Tracks and Depot Off of Fourth Street.

W. A. Hopkins, assistant general freight agent of the Wabash at St. Louis, and L. E. Clardian, division freight agent of the Wabash at Omaha, were in Maryville yesterday to interview the local merchants about business conditions and also in the interest of the proposed moving of the Wabash tracks and freight depot from Fourth street to a point farther north.

There has been considerable agitation here for the moving of the railroad tracks off of Fourth street so as to make a more suitable entrance to the College grounds. The College has recently purchased the land west of the Wabash track, and just east of the home of President Lamkin, for the purpose of making a new entrance to the College grounds.

No decision has been made by the proper officials of the Wabash as yet as to the proposed moving of the tracks and the freight depot.

LABOR FLIRTS WITH LAFOLLETTE PARTY

BUT ENDORSEMENT MAY NOT BE GIVEN.

WILL STUDY PLATFORMS

Then Executive Council May Make Recommendations To Rank and File of American Federation.

Washington, July 31.—Endorsement of the LaFollette independent presidential ticket will result from the meeting of the executive council of the American Federation of Labor opening in Atlantic City tomorrow, according to word reaching leaders of the progressive political party here today.

LaFollette's managers, however, refused to comment publicly on these informal advises. The first problem before the executive council at Atlantic City, is whether endorsement shall be given to any of the presidential tickets.

Samuel Gompers, president of the federation, in a formal statement has declared that organized labor will pursue its usual non-partisan course, but the executive council, it was learned, will analyze from a labor view-point, the platform of the three parties with a view to determine which of the platforms contains the "greatest hope for labor." The council then will commend to the consideration of the rank and file of the American Federation of Labor the outline of the political principles which can be safely supported in the election.

Robers Get \$35 at Elks Club Last Night

Robbers broke into the Elks Club on Main street last night and robbed the cash drawer of the cigar counter of from \$35 to \$40, Horace Richmond, said this morning.

The thieves evidently were well acquainted with the club as entrance was made by the front door with a key and a pair of pliers secured from the basement were used to jim the locks. The three sliding doors of the cigar counter were opened by means of taking off the hinges and damaging the locks. The robbery was reported to the sheriff's office.

This is the second time the Elks Club has been robbed since December.

LEGAL BATTLE ON TESTIMONY RAGES

STATE RESENTS ATTEMPTS OF ALIENISTS.

TRIAL TO CLOSE SOON

Judge Caverly Indicates He Will Conclude Late This Afternoon or Tomorrow Morn.—Jurist Tired.

Chicago, July 31.—The legal battle of whether alienists are to be permitted to testify that Nathan Leopold, Jr., and Richard Loeb are afflicted with "functionally mental diseases" even though not insane, waxed hotter and hotter in Judge Caverly's court today where the young men are on trial for their lives.

Several times Judge Caverly indicated he was tired of arguments and said he was not going to change his decision that the alienists should be allowed to give testimony "for what it is worth" but the state's attorney continued doggedly and persistently to try to prove to him by precedents and authorities that his decision was wrong and unprecedented.

Judge Caverly indicated he would conclude late this afternoon or early tomorrow morning.

**LARGEST CIRCULATION
IN NODAWAY COUNTY.**

ANNOUNCEMENT

To the Democratic Voters: I here
by announce myself for Sheriff of
Nodaway County, subject to the Demo-
cratic Primary, August 5, 1924.
HARVE ENGLAND.

A MOVE FOR CLEANER MOVIES.

If the resolution adopted by the As-
sociated Motion Picture Producers of
California, pledging them not to "pro-
duce or promote the production or dis-
tribution, exhibit or promote the exhi-
bition or aid in any way whatsoever
the production, distribution, or exhibi-
tion of any picture salacious in char-
acter or title," may be taken at its
face value it marks an advance step
in the motion picture industry which
should be generally received with fav-
or.

The producers in adopting this res-
olution are pursuing one of the surest
courses looking to the prevention of
official censorship. When they pledge
themselves to voluntarily refrain from
the production of a salacious picture
they make intervention by the govern-
ment unnecessary and censorship is
fraught with too many abuses to be
needlessly encouraged. If the produc-
ers of California will accept the spirit
of their resolution and not pay mere
lip-service to the cause of cleaner
films they need have no fear of cen-
sorship nor of diminished patronage.
The public wants clean films—not nec-
essarily maudlin, Pollyanna themes
that sicken any one of normal men-
tality—but stories treated in a natural
way without undue stress laid on the
suggestive features of the plot.

MELTING GOLD COINS.

Delegates to the American Mining
congress in Sacramento in late Septem-
ber will present some kind of a plan
calculated to end the melting of gold
coins by jewelry and novelty manufac-
turers. The delegates claim that such
a practice results in large annual losses
to the nation by reason of taking large
quantities of currency from circula-
tion.

There is at present no law which pro-
hibits the melting of gold coins. While
the amount taken from circulation each
year by the melters doubtless is neg-
ligible compared with the amount in
circulation, if permitted to continue
for an indefinite length of time this
indiscriminate practice would result
in staggering losses. There is need for
legislation to abate the practice. Tax-
payers, who pay to have their coins
minted, do not approve of appropriat-
ing for the benefit of novelty manu-
facturers.

the same reason. Ambition, that
can't be gratified, is the basis for a
lot of grief in this world.

Further contracts aggregating
about two millions and covering thirty-
five road projects and twenty-
nine small bridges will be let by the
highway commission on August 12.
This is said to be the last contracts
to be let this year unless proposal
number 5 wins.

Aside from giving an unnatural
and abominable appearance, physi-
cians say the constant use of lip
sticks is injurious to the health.
They crack the lips and injure the
mucous membranes and the cheap-
er grades, frequently swallowed,
may cause stomach disorders.

The Shenandoah has just complet-
ed another exhibition spin, this time
covering three states. No longer do
the air flights of the big vessel pro-
vide the nation with a thrill. It is
becoming quite a commonplace thing.
The degree of safety manifested in
the vessel's flights is the result of
"straight" flying as opposed to
"stunt" flying, which is responsible
for more air fatalities than any other
one thing.

Social Hour Club.

The Social Hour Club was entertained yesterday afternoon at the home of Mrs. Robert Gumm near Pickering. In answer to roll call the members gave names of their favorite poems. The club decided to accept the invitation to meet with other clubs at the Mt. Pleasant school on August 14. The meeting was then turned over to the committee on entertainment who gave a burlesque program under the cognomen of The Bostonian Players. The program opened with singing of "Sunshine." Mrs. Denver Loch as the leader introduced the following characters, who each gave a short talk: "Bridget O'Flannigan," the Irish washer-woman, Mrs. Carrie Hanna; "Miss Lizzie O'Halligan," a hotel waitress, Mrs. Will McDowell; "Miss Samantha Twills," a chauffeur, Mrs. Denver Loch; and "Mrs. Wiggs of the Cabbage Patch," Mrs. James Hanna. The latter sang "Little Nell of Narragansett Bay." The next number was a deaf and dumb pantomime. Miss Maurine Heilner, of Salt Lake City, who was a guest of the club, gave three readings. Refreshments were served by the hostess, assisted by Phyllis Gray. Other guests at the meeting were Mrs. Ed Wiley and niece, Miss Phillips; Mrs. Floyd Alexander, Mrs. L. H. Gray and grandson, James Lahr; and Phyllis and Marjorie Gray. The following members were present: Mrs. C. R. STATEMENT FROM T. C. COIL

Maryville, Mo., July 31, 1924.
To the Democratic Voters of
Nodaway County, Missouri.

At the time I announced myself as a candidate for representative of Nodaway County, I thought it would be possible for me to make an active campaign, but being a farmer, the crop season as you know has made it impossible for me to make such a campaign as I desired. I am therefore, taking this opportunity of calling your attention to my candidacy.

One who desires to represent a county like Nodaway in the legislature, should, I believe, have a definite policy on which to stand. The county being purely agriculture, ones policy should first be toward the agricultural interests for the county.

Maryville, the county seat, having one of the state educational institutions in its midst and it being an institution for the nineteen counties of our state, a representative should have a deep and abiding policy toward that institution. Nodaway County having a large number of rural schools within its boundaries, should have a definite policy towards the rural and high schools of our county.

A representative from Nodaway County should have an interest in the state roads of the county and for the betterment of the public highways. To my mind these are the three principal things that should move a representative in the halls of the legislature: First, he should keep in mind the educational institution of his county; second, he should keep in mind the needs of the agricultural interests; third, he should be one deeply interested in the good roads of the county.

But this is not all, there is a feeling sweeping our country that the prohibition law of our country is insufficient, or that it is not being properly enforced. I say to you frankly that I believe, and should I be elected to the legislature, it will be my aim to draft into law such measures as will put teeth in the prohibition statute and provide means for its enforcement.

I believe the general public should know that however proficient the officers of a county might be, yet there is no means by which they may obtain funds for proper investigation of conditions in a community. I believe there should be a law in the statute books giving the county court the right to set apart a portion of the funds of the county to be used in the enforcement of the prohibition statute.

Again I believe that the 60 million dollar bond issue and the automobile license should be applied to the roads in the construction of roads in the counties in proportion to their population and their number of automobiles. I do not believe that Nodaway County, because we happen to be located in the state, not in direct communicating line between large cities be deprived of our proportionate part of the road bond issue and automobile taxes.

I want to assure the people of Nodaway County and those widely interested in the State Teachers College at Maryville that it shall be my every aim to obtain for that school sufficient funds to meet the growing needs of the school. It will not be necessary for any organizations interested in the school to petition me or invite me to attend the meetings of the various committees on normal schools to aid in presenting the wants of the college. I shall deem it my duty as your representative to be present with the thought in mind that the State Teachers College at Maryville, with its wonderful opportunities could be made the greatest institution of learning in the State. However strong I shall be for the College, I shall not waiver in my duty towards the rural schools and high schools of the state and county. No one will need to petition me to get me to lend my every aid to the State University. I shall consider it my duty to render every aid possible to every institution of learning in the state.

I believe that if the tax money was judiciously expended that there would be no need for such high taxation. I can not reconcile myself to the belief that the farmers should pay in taxes all of the proceeds of his labor. It shall be my purpose and my aim while in the legislature to bring about such reform in the statutes that will modify and lower, without injuring the educational and penal institutions of our state a reduction in the taxes.

These are a few of the principles on which I stand: No society or organization need to question me as to my belief upon the prohibition issues. I stand squarely on the enforcement of the prohibition amendment and the enforcement laws of the state. I shall never vote to repeal them or shall I vote to minimize their enforcement.

After making such investigation as you deem necessary, should you believe that I could properly represent you in the legislature of the state for the next two years, I ask your kind consideration. Very respectfully,
T. C. COIL.

COULD NOT WALK BECAUSE OF PAIN

Bad Case of Woman's Illness Remedied by Lydia E. Pinkham's Vegetable Compound

St. Louis, Missouri.—"I had such a bad case of female trouble that I could not walk because of the pains from inflammation. My back was all done up. I could hardly bend, could not go up stairs because of weakness, and no one could possibly be in worse shape than I was. I have taken twelve bottles of Lydia E. Pinkham's Vegetable Compound, and I am a strong woman now and can work down any of my neighbors. They wonder how I can do so much work. I dare say that I have recommended your medicine to a thousand women. A little book was thrown at my door, and that is how I first learned of it."—Mrs. D. M. BEAUCHAMP, 1104 Morrison Avenue, St. Louis, Mo.

Letters like this bring out the merit of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking Lydia E. Pinkham's Vegetable Compound.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 98 out of every 100 report they were benefited by its use. For sale by druggists everywhere.

IS HONESTY THE BEST POLICY? (Boonville Advertiser)

Floyd Jacobs is an honest man and we are sure does not want to misrepresent any facts as he makes his campaign for the Democratic nomination for governor, and will doubtless welcome the following corrections to certain public utterances he has made during his campaign.

Roy Williams is not Dr. Nelson's campaign manager. Joshua Barbee, of Saline county, is the manager, and it was published in the newspapers at the time.

Surely Mr. Jacobs does not want to raise a false issue by reason of the unpopularity of the State Tax Commission to help himself. He just does not know the facts. He does not know that Governor Gardner asked Roy Williams to head the Tax Commission when no appropriation was made to pay the commissioners their salaries or expenses, and Governor Gardner did not want the public service corporations to escape taxation on their general property tax or the franchise tax, which taxes were then, and are now, administered only by the State Tax Commission, aggregating several millions of dollars. Governor Gardner called Roy D. Williams and insisted that as a public service he must take this office.

Mr. Jacobs says, "In its (meaning the State Tax Commission) long history, it has never been known to recommend a reduction to the property valuation of the average man or woman but to a few big corporations." Being an honest man, of course, he does not know that in the report of the State Tax Commission for the years 1919 and 1920 the State Tax Commission recommended to the Board of Equalization that it reduce the farm lands in this state from \$1,110,146,610 as assessed by the county assessors to \$760,667,333. (Page 25 of the report of the State Tax Commission 1919-1920.) Roy D. Williams was at that time chairman.

Being an honest man, he does not know that the Tax Commission, the same year, recommended that the value placed upon hogs by the County Assessors of the State, aggregating \$19,945,118 be reduced to \$17,273,296, and so on through the list. Mr. Jacobs confuses the Journal of the Board of Equalization with the Report of the Tax Commission.

Of course, Mr. Jacobs would not tell a half-truth, being an honest man, and, therefore, he has not read the will of James M. Nelson. For, if he had, we are sure he would have told that all the property devised by the will of James M. Nelson to persons not having children, was entailed. He does not know that, after five years, the Trustees appointed for Dr. Nelson resigned and the Circuit Court of Cooper County, by its solemn judgment, found that Dr. Nelson was a proper person to manage the estate and appointed him the sole trustee and turned over the estate to him without bond. If he had looked on Circuit Court Record 26, at Page 470, he would have found this out, but being an honest man, we are sure he did not know it, for he would not attempt to deceive.

Mr. Jacobs says that Dr. Nelson is not a farmer and, being an honest man, he just doesn't know. Here is what 8 of his neighbors say about him:

"To Missouri Farmers: "As you know, we have a candidate for Governor, Dr. A. W. Nelson, and we are writing you regarding his candidacy.

"The report, it seems, has gone out that Dr. Nelson is making false claims as to being a real dirt farmer. Being neighboring farmers, we are in a position to know that he is all he claims to be, and if you knew him as intimately as we do you would say that he is very modest in his claims.

"He is a practical farmer and feeder in every sense of the word and just because he operates on a large scale does not entitle his opponents to contend that he is not a dirt farmer. He looks after every detail of his large farm, giving his personal attention to his stock feeding and grain raising.

"He is not only a successful farmer, but he is a neighborly farmer. We always feel free to call on him for extra help, borrow tools from him, or make any of the exchanges that one farmer feels free to do with another. And he feels free to do the same with us.

"He understands the farmers' problems, because he comes in contact with them every day, and we are glad to say that he has the sense and judgment meant to solve them.

"This is one time the farmers of Missouri have a chance to send a practical successful farmer to the Governor's chair and if they fail to do it they are passing up a chance that comes once in a lifetime.

"You may rest assured that any assistance you may see your way clear to give Dr. Nelson in his race will be an aid to the farmers of Missouri.

"We shall be glad to hear from you with any suggestions you may see fit to make or for any information you may desire.

"Very truly yours,
(Signed)

We are sure he would not slander another man for the benefit of himself. He might write these men, to make sure.

We are sure Mr. Jacobs would not promise anything that he could not do and therefore, he had better ask someone familiar with the State what happened to the Legislature in 1919 when it repealed the State Tax Commission law without first transferring the powers of that Commission. It found that the railroads would escape taxation; it found that the telephone lines would escape taxation; it found that every corporation, domestic or doing business in this state, would escape taxation on its franchise. only remaining thing to do would be to recreate the Tax Commission or to raise the value on the average man and woman. We are sure, being an honest man, he does not know this, because he would not promise a thing he knows he could not carry out, being an honest man.

We are sure Mr. Jacobs does not hear the chairman introduce him as a soldier who fought in the trenches, for we are sure he would not want anyone to believe that he was in the trenches when he only enlisted on October 25th and the Armistice was signed on November 11th. Being an honest man, we are sure he does not hear the chairman when he says that Mr. Jacobs resigned as Public Administrator of Jackson County (one of the most lucrative positions in the state) to go into the army, because

Mr. Jacobs is an honest man and would not want people to believe he resigned when, as a matter of fact, he has never resigned any office in the twenty years that he has held office. We are sure, being an honest man, Mr. Jacobs would not want people to misunderstand if he speaks of being in Europe, because he was there after the war, not as a soldier but under lucrative employment.

Is honesty the best policy in politics as well as business? We will see.—The Boonville Advertiser.

Beauty to Aid When "Queens" are Elected

Girls in Every County in State To Join in Campaign To Boost Missouri—Trips Awarded.

Jefferson City, July 31.—Not for their beauty of face or form, but their ability to dispose of memberships in the Missouri Association, is the way the candidates for "county queens" for the capitol dedication here October 6, will be selected, according to a statement issued yesterday by Otto C. Botz, president of the Missouri Association, which has charge of the selection.

The queens will not be selected by vote on their popularity or beauty in their respective counties, for the Missouri Association has combined this feature of the dedication with its membership campaign. To quote from Mr. Botz's statement: "Only bona fide, paid-up members of the Missouri Association may vote for the candidate," and candidates will have the privilege of enlisting friends and neighbors in becoming members of this association."

As an inducement to sell memberships in the association the would-be queens are promised a part in the official dedicatory services, serving as attendants to the four epoch queens, all governors' wives—Mrs. Herbert S. Hadley, Mrs. Elliott W. Majors, Mrs. Frederick W. Gardner and Mrs. Arthur M. Hyde. They are also promised "a prominent part" in the pageant.

The queens who sell the most memberships will get special trip to the St. Louis or Kansas City fall festivals, with all expenses paid.

3 DUAL MEETS FOR LOCAL TANK TEAM

ATCHISON COMING TOMORROW WITH 40 SWIMMERS.

SCHEDULE SHENANDOAH

For Two Meets Next Week, on Monday at Shenandoah and Here on Friday, August 8.

The manager of the Maryville swimming team, George Aley, has arranged a series of dual meets for the local tank stars and at present has three meets arranged within the next ten days.

Tomorrow evening the tank team from Atchison, Kan., will be here forty strong to compete with the local swimmers. At Atchison, Kan., last week, Maryville, although winning a number of contests, lost the tank meet. The meet at Atchison was witnessed by 2,000 spectators and much interest is taken in the sport there.

For next week two dual meets have been scheduled with the team from Shenandoah, Ia. On Monday of next week the local swimmers will go to Shenandoah and meet the team there at pool at the Fair Grounds, the team being managed by Ray Cleveland. A return meet will be held between the Maryville and Shenandoah swimmers here at the local pool on Friday, August 8. At Shenandoah the contest will be held during the afternoon and evening.

Dowell, who defeated Forrest Gilliam in a grilling contest, winning 1 up on the last hole, and both shooting a 46 score.

Hand Golf Is New Game Introduced by M. U. Students

(Columbia Missourian.)

A new sort of game in Columbia—a slight variation of the popular game of golf, but instead of playing with clubs this game is played with the hands—has been introduced by three students of the university, who are now regular addicts to the new form of sport.

The three boys were on the golf links last week participating in a much heated threesome. The contestants finally ran up such an outrageous score and became so disgusted that they decided to pick up the golf ball and throw it instead of using the clubs.

This they found to be an interesting form of recreation, in fact much more interesting than the real game of golf. The three boys made scores of 49-50-52, which is much lower than their score made with clubs.

"It gives us the same exercise as other golf does," said one of the boys, "and does not incur the expense of lost balls and broken clubs. It saves the carrying around of a heavy bag and is much easier on our tempers and dispositions, and another thing, we do not have to wear knickers to play the game," concluded the boy.

Hord Remains in About the Same Condition

Wilder Hord, who was rendered unconscious and suffered a fractured skull when struck with a drawbar by Findley Kaufman, on the Hughes township road, is in a serious condition, but has received no setbacks since yesterday evening, his condition being about the same late this afternoon, according to reports from Graham, where he is at his home.

Hord suffered the injury in a quarrel with Kaufman, who claims to have acted in self defense. The men were working on the road, doing some grading. The affair occurred Monday evening.

Extra Atchison Swimmers, 40 Strong, Tomorrow Evening, Aug. 1, 7:30

These Kansas Boys and Girls will again attempt to take the measure of the Maryville Swimmers at the Sanitary Swimming Pool. But Atchison is not Maryville so the Merry Villians strongly think. The whole population of Maryville should turn out to form a second line of defense and cheer their Boys and Girls on the victory. The admission will not be raised a cent; just the regular 10c and plenty of seats. For loyalty's sake and for a lot of fun, be there. ATCHISON TURNED OUT 2000 STRONG
REMEMBER—its tomorrow night at 7:30, at the Sanitary Swimming Pool
